

TOOL ROOM MACHINIST – 1st SHIFT

POSITION SUMMARY: This position involves basic mold making skills; machining steel and aluminum, lathe work, spotting, and benching. Welding, electrical, and hydraulic skills are a plus.

RESPONSIBILITIES:

- Make simple repairs to damaged or corroded injection molds.
- Make parts from steel and aluminum to replace broken parts.
- Disassembly, cleaning, and reassembly of complex injection molds.
- Benching to repair scratched or damaged steel or aluminum surfaces.
- Some machining of plastic parts.
- Regular cleaning and maintenance of milling machines, grinders, and lathes.

REQUIREMENTS:

- One to three years of related experience and/or training, or equivalent combination of education and experience.
- Some experience with milling machines and lathes is required.
- Experience spotting and benching is preferred.
- Welding experience is highly desired.
